### Courses Included in a Premium License

[3D Analysis of Surfaces and Features Using ArcGIS](#)

[3D Visualization Techniques Using ArcGIS](#)

[3D Visualization Using ArcGIS Pro](#)

[Address Geocoding with ArcGIS](#)

[Advanced Techniques for Cartographic Representations](#)

[Archiving Data in a Multiuser Geodatabase](#)

[Basics of Map Projections](#)

[Basics of Python \(for ArcGIS 10\)](#)

[Basics of Raster Data](#)

[Building Geoprocessing Models Using ArcGIS Pro](#)

[Building Models for GIS Analysis Using ArcGIS](#)

[Configuring and Administering an ArcGIS Online Organization](#)

[Controlling Data Translations Using Extract, Transform, and Load Processes](#)

[Creating 3D Data Using ArcGIS](#)

[Creating and Editing Metadata in ArcGIS](#)

[Creating and Sharing GIS Content Using ArcGIS Online](#)

[Creating and Sharing Map Packages in ArcGIS](#)

[Creating Dynamic Maps Using Esri Maps for Office](#)

[Creating Prediction Surfaces in ArcGIS](#)

# Pobieranie danych do kursu

Getting Started with GIS (for ArcGIS 10.1) by Esri

Virtual Campus 

[Help](#) | [My Training](#) | [GIS Dictionary](#) | © 2012 Esri

**Introduction**

- What is GIS?
  - How a GIS works
  - What can you do with a GIS?
  - Author, share, use
  - Introducing an online GIS
  - Using a GIS
  - Defining GIS
- What is GIS data?
  - Vector geometries
  - Vector information
  - Raster basics
    - Data storage
    - Metadata
  - Which data to use?
    - Choosing data models
- Navigating a GIS map
  - Layers
  - Scale
  - Moving around a map
    - Data and layout view
  - Moving around a map layout
- Finding information
  - Info tools and attributes
  - Attribute query basics
  - Location query basics
  - Creating queries
- Querying maps

**Review**

- Exam
- What's Next
- Evaluation

[Hide Contents](#)

## Introduction

Have you ever mailed a letter, flown in an airplane, or turned on a faucet?

Did you know that GIS is used to plan mail and flight routes, locate leaky pipes, and perform other analyses needed to make decisions and complete everyday tasks? Would you like to know more about what a GIS is?

This course will provide foundational knowledge of a GIS and show how it can be used to acquire geographic knowledge. You will explore GIS maps and use tools to gather information from GIS maps that can be used to make decisions at work or in your daily life.

Learning Objectives | Key Terms | Software Requirements | **Data**
